Dr. Mona Radamis

Member of the American
Society of Bariatric Physicians

Most women want to change at least one attribute of their appearance & Body Weight is the attribute most want to change. About 1in5 women had abusive dietary practices such as vomiting.

Role of nutrition in health & beauty nutrition can play a role in vanity through its effects on skin, hair quality, vision, perhaps baldness & the most important your body shape.

For all women trying lots of diets & failing to reach or to maintain their goals. I'd like to highlight some deity mistakes that we sometimes practice without knowing that they're usually the cause of failure.

more *Diet Mistakes..*

1. Avoiding snacks

The best way to cut back on calories is to stop eating between meals. WRONG! You'll just be hungrier and more likely to binge at mealtime. Just be sure to make healthy snack choices.

2. Never having dessert

While the key to weight loss is changing eating habits, it's not good to ban desserts completely. Allow yourself to indulge in small portions, and you're less likely to binge later.

3. Eating carbohydrates

Like fat, carbohydrates can't be avoided altogether; they are the body's main source of energy and should make up about 55 to 60% of daily food intake.

4. Eating too quickly

It takes 20 minutes for you to feel full; therefore you'll probably overeat if you stuff your face before the signal has time to make its way from your stomach to your brain.

5. Eating large meals

Eating several small meals a day prevents intense binging & stabilizes blood sugar.

6. Drinking too much coffee

While it's true that coffee may give you a temporary jolt, this isn't a healthy way to lose weight. Drinking too much caffeine can cause dehydration and disturb sleep patterns.

Dr. Mona Radamis

Cool To Clip!

4 Reasons Why Vouchers or Coupons are a Hot Ticket

Get a natural thrill of pleasure at the Cashier.
If you're not one of those people who knows the prices of things, you will love the satisfaction you feel when you find out the price and how it dropped greatly just for you. I guarantee it and you'll feel like you've "beaten the system."

You save a ton of money.

It's always cool to save money. Regardless of what you see on television, rich people stay that way because they conserve their income. Instead of thinking, "I'll save 300 pounds" think, "I have 300 pounds more to enjoy because of this offer."

You have lots of resources.

There is a wealth of advice online about everything. Consumers all over the world meet at online forums to discuss deals and shopping ideas. Check our consumer stories at www.offers-plus.com; Get advice and give advice.

Inspire other people. Young and old.

Coupons are a great way to become conscious of your spending habits. Saving your first 100 pounds is rewarding and addictive at the same time. Try it out for yourself!

Please consider giving back to society whenever you benefit from our services.
